Summary

Data-driven B.Tech Computer Science graduate specializing in Supply Chain Operations, Inventory Control, and Process Management. Certified in TCS iON Inventory Management, Simplilearn SCM, CSCMP Warehousing, and MS Excel. Skilled in workflow tracking, vendor coordination, and visual reporting using Power BI and Tableau. Seeking a Supply Chain Coordinator or Operations Coordinator role to streamline daily operational workflows and logistics efficiency.

Education

B.tech In Computer Science & Engineering
Integral University | 2026
Lucknow | Grade : 8.9 CGPA

Diploma In Electronics Engineering
Aligarh Muslim University | 2023
Aligarh | Grade : 8.05 CPI

High School
Prema Educational Academy | 2020
Menhdawal | Grade : 82.66 %

Professional Experience

Internship - Sipher Web
05/2025 – 07/2025 | Remote
•Developed a Spam Detection System using Machine Learning techniques with TF-IDF (Term Frequency–Inverse Document Frequency) for text feature extraction and Naive Bayes algorithm for classification.
•Performed data preprocessing, feature extraction, and model evaluation to improve prediction accuracy.
•Utilized the Naive Bayes algorithm to classify spam and non-spam messages with improved prediction accuracy.

Virtual Job Simulations

Goldman Sachs - Operations Job Simulations
04/2026 | Forage
Personal Transaction and Financial Planning.
Asset Management and Trade Fail Resolution.

CBRE - Project Management Job Simulation
03/2026 | Forage
Through this experience, I stepped into the role of a Project Manager and worked on a "Showroom project for a global manufacturer of high-end kitchen appliances".
I conducted an "initial review" of the project plan, identified "potential risks and dependencies", and created a "Gantt Chart" to manage the project timeline while understanding the concept of the "Critical path".

Deloitte Australia - Data Analytics Job Simulation
In this job simulation Involves data analysis ,created a data dashboard using Tableau and used Excel to classify data.

Achievements

ISFO MATHS OLYMPIAD - Level 2 Qualified
National Rank 60 | 2020

Buniyaad Talent Search - District Level
Rank 2 | 2018

Skills

Domain Knowledge
Supply Chain Management, Inventory Control, Logistics Operations, Risk Assessment, Project Management (Gantt Charts, Critical Path Analysis).

Data & Analytics
MS Excel, Power BI, Python

Soft Skills
Cross-Functional Teamwork, Operational Coordination, Data-Driven Problem Solving

Projects

Spam Detection Using Machine Learning

Developed a Machine Learning-based Spam Detection System for classifying spam and non-spam text messages.Implemented TF-IDF (Term Frequency-Inverse Document Frequency) for text feature extraction and vectorization.Utilized the Naive Bayes algorithm for text classification to improve prediction accuracy and detection performance.

Sentiment Analysis of Customer Reviews using NLP

Built a Sentiment Analysis of Customer Reviews project using NLP to classify customer reviews. Applied TF-IDF for text feature extraction and performed preprocessing, model training, and evaluation.
Analyzed customer feedback data to identify sentiment trends and improve data interpretation skills. Uses the BERT (Pre-trained Model) to achieve the improved accuracy.

Certifications & Technical Credentails

Operations & Supply Chain Management(BUS606) - Saylor Academy
Credential ID : 7437186972MT (IACET Accredited)

Supply Chain Foundations - LinkedIn Learning
PMI Authorized

Basics of Iventory Management - TCS iON
Certificate Of Participation

Supply Chain Management - SimliLearn
Credential ID : 10301012

MS-Excel (30 Days Crash Course) - Learn More Pro
Credential ID : SQ21T01

Power BI - SkillCourse
Credential ID : SC-015CB6EB71

Microsoft - Azure Fundamentals - SkillUP
Credential ID : 9898856
